

HIGH PERFORMANCE ROOFING UNDERLAYMENT ■

“ If the absolute best product is required, RoofTopGuard is the product of choice. Synthetic is replacing old asphalt felt products, which are oil based. RoofTopGuard is the next generation product to replace asphalt felt. ”

Sal Catanese
President, Underlayments Specialties Plus

RoofTopGuard II® High Performance Roofing Underlayment is a superior strength five-layer polypropylene/polyethylene. Lightweight, and guaranteed waterproof, RoofTopGuard is 30% faster to install than the competition’s equivalent underlayment.

- Hurricane-proof: will not tear or rip in high winds
- Designed to provide breathability to houses by allowing air to pass through while repelling moisture
- Mildew and mold resistant
- 100% resistant to insects, vermin, mold, rot and the elements
- Suitable for use with all roofing materials
- Able to be left exposed to the elements for up to 6 months without degradation
- Guaranteed for 30 years

RoofTopGuard II®’s exclusive “FIBER-GRIP®” surface is slip resistant and offers superior grip. In fact, independent laboratory tests have shown that RoofTopGuard II® offers greater traction and slip resistance than standard roofing felts.
